MEDIA RELEASE

NanoMaterials Technology to Present at Particles 2006 Conference

Singapore, 17 April 2006 – Singapore-based NanoMaterials Technology Pte Ltd (“NMT”), announced today that it is scheduled to present at the Particles 2006 conference. The conference is being held at the Wyndham Orlando Resort at Orlando, Florida from 13-16 May 2006. Dr. Jimmy Yun, CEO of NMT, will be speaking on the design and production of ultrafine active pharmaceutical ingredients under high gravity environment.

About NanoMaterials Technology Pte Ltd (“NMT”) www.nanomt.com

Founded in April 2000, NanoMaterials Technology (NMT) is a Singapore company that specialises in the development and commercialisation of the production technologies of nanomaterials.

NMT has a proprietary technology called the High Gravity Controlled Precipitation (HGCP). The result of this breakthrough is a nanomaterial production technology that is simple, easy to scale up and extremely cost effective. NMT places great significance in the research and development in nanotechnology.
